

Fine insect repellent net

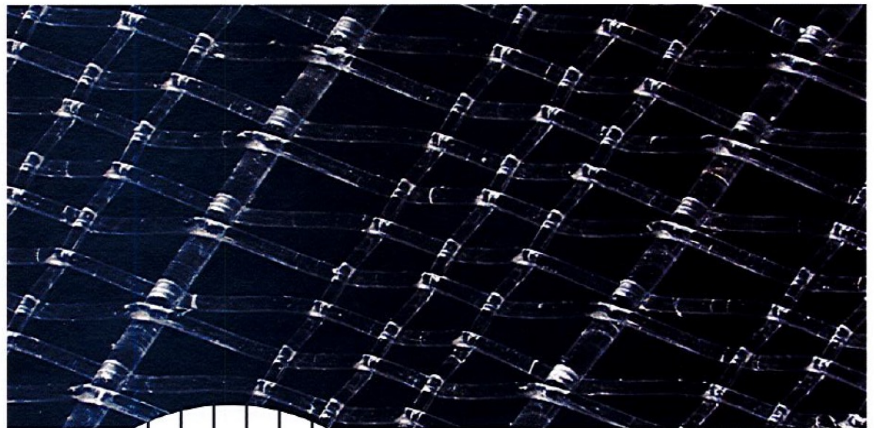

とお
通るク

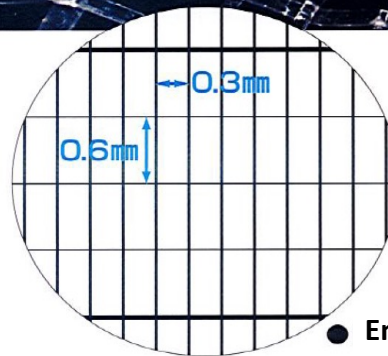

◆特長 Feature

◆Features

- ◎ **High breathability**
A special structure that allows a wide range of wind to pass through and prevents the formation of water films.
- ◎ **Finer mesh**
The mesh size of 0.3mm × 0.6mm prevent whiteflies from entering.
- ◎ **Significant increase in intensity**
It can maintain an intensity of 80% or more with respect to the amount of ultraviolet rays equivalent to 4 to 5 years.
- ◎ **High heat retention and chemical resistance**
By using polypropylene as the material, it has low thermal conductivity and chemical resistance.
