# Sun protection net

## ■ 特 徴 Feature

- 1) By scattering sunlight, it prevents sunburn of vegetables and fruits.
- 2) Because it is breathable, it does not get stuffy.
- 3) You can select the appropriate one by various shading rates.

## ■ 使用方法 Instructions

Fit various object, umbrella-like, bag-like, shade-like or the like, can be selectively used.

## ■ Valiation \*The numbers represent the shading rate

<b>サンチル 8</b>	Corresponds to important fruits with sunshine. (8%)
<b>サンチル22</b>	Balance of sunshine and sunburn. (22%)
<b>サンチル30</b>	Prevents sunburn and lowers surface temperature.
<b>サンチル37</b>	Used for house lining to lower internal temperature.
