

Fine insect repellent net

とお
通るク

◆特 長 Feature

◆Features

◎**High breathability**

A special structure that allows a wide range of wind to pass through and prevents the formation of water films.

◎**Finer mesh**

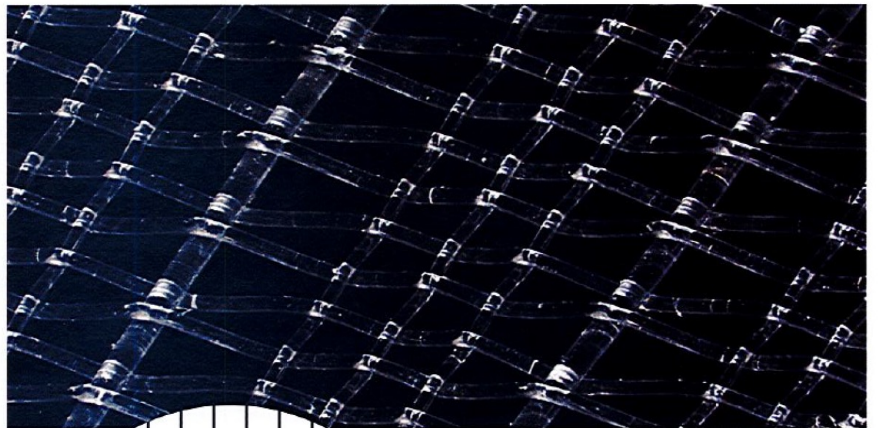

The mesh size of $0.3\text{mm} \times 0.6\text{mm}$ prevent whiteflies from entering.

◎**Significant increase in intensity**

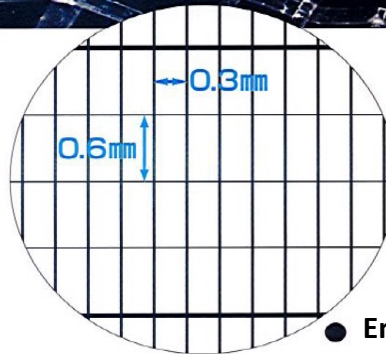

It can maintain an intensity of 80% or more with respect to the amount of ultraviolet rays equivalent to 4 to 5 years.

◎**High heat retention and chemical resistance**

By using polypropylene as the material, it has low thermal conductivity and chemical resistance.
